

## **First Day at the Cabin**

### **(Story word: first)**

June is the time that all five of us, Mom, Dad, Mike, Jane, and me, get to visit the cabin at Alpine Lake. When we get there, we unpack the van and pile all our bags on the deck.

We think of all the fun things we want to do. We can swim in the lake, hike to the old log shack, or fish from the dock.

But first, there is one more job to do. We spend time raking and picking up the brush and plants close to the cabin. This helps a cabin to be safe from fires that can happen.

We fill black trash bags with all the brush, sticks, plants, and twigs we can find. We compete to see who fills their bag the fastest. When we finish the job, we plan the fun for the rest of our first day.
